Drywall Contractors review in Toronto

About 1 year ago

Ulrik, did a fantastic job with the taping, mudding and sanding. He was constantly asking us to take a look at his job to make sure we were happy. He was quick and tidy. I will be calling him very shortly for our next project as we are renovating room by room. He was able to give us a quote by sending him a picture. He stuck to his quote. We are very happy.

Drywall Mudding And Taping, Skim Coat For Plaster

10/10

Toronto Over 1 year ago

Ulrik responded quickly and completed the mudding and taping work along with completion of a skim coat on a plaster repair patch very efficiently at a reasonably cost.

aguilerajimenezivandejesuHe did this proyect among other sections in the same jobsite downtown in Toronto, he finished with a better quality than I would expect and on time. I'd recommend this taper for proyects regarding renovations or new commercial, residential or offices since he delivers with the best ratio quality/price

He did a good repair in my site, on time and with a good quality, responded on the special details it had and showed good experience performing his trade.
